REASONS FOR ALLOWANCE

2. These comments are made in addition to the remarks in Applicant's specification and arguments, concerning the manner in which the invention distinguishes from the art discussed therein.

The Examiner notes that the prior art does not disclose or suggest the claimed combination including particularly an intelligent assist system having a multi-function hub, which has a communication interface for interfacing with an information network as well as providing digital communication between the hub and other modules within the intelligent assist system. This is embodied in Independent Claim 1.

See specification, p. 3, lines 16-22 and p. 4, lines 1-6, p.6, lines 1-17 and p. 7, lines 6-12. The prior art lacks this structure or anything equivalent to it.

The foregoing is an Examiner's Statement of Reasons for Allowance.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
